Business Needs Assessment

Fleet telematics requirements & scoping form

Assessment ref: Date:

Completed by (myTrack): Branch:

1. Client / Company Profile

Company name:

Industry / sector: Company reg. no.:

Primary contact: Role:

Phone: Email:

Decision-maker (if different):

Billing contact & email:

No. of branches / depots: Head-office location:

2. Fleet Profile

One row per vehicle group. Tank size + CAN/OBD availability drive hardware selection and unit cost.

Qty	Vehicle type	Make / Model	Year	Fuel type	Tank (L)	CAN? Y/N	OBD? Y/N

Vehicle types: truck / rigid / van / bakkie / sedan / trailer / reefer / yellow-metal.

3. Operational Context

Operating provinces / regions:

Route profile: Local / urban Long-haul Cross-border (roaming)

Depots & yards (locations):

Hours of operation: Shift pattern:

4. Objectives & Pain Points

Rank the client's priorities 1 (highest) to 5. Leave blank if not relevant.

Objective	Priority (1-5)
Stop / reduce fuel theft	
Asset visibility & recovery	
Driver safety & behaviour	
Compliance (licence / PDP expiry)	
Utilisation & idle-cost reduction	
Customer ETAs / delivery proof	
Insurance premium reduction	

Other objectives:

5. Feature Requirements

Mark each myTrack feature as Must-have, Nice-to-have, or Not needed.

Feature	Must-have	Nice-to-have	Not needed
Live GPS tracking			
Fuel theft detection			
Driver behaviour scoring			
Speed limit enforcement			
Compliance alerts (licence / PDP)			
Fuel consumption reports			
WhatsApp driver notifications			
Geofencing			
Multi-depot / multi-branch			
Delivery / customer tracking share			
Idle & fleet-cost reporting			
Geofence dwell-time reporting			

6. Hardware Requirements

Per vehicle group. Base unit = Teltonika FMB tracker. Data source: CAN adapter (LV-CAN200) preferred, OBD plug for light vehicles, LLS fuel probe as fallback.

Vehicle group	Data source (CAN/OBD/Probe)	Accessories required	Qty

Accessory key: Panic Immobiliser RFID / iButton Temp sensor Backup battery

7. Installation Logistics

Install location: At depot (single site) Multiple sites Mobile / on-site

No. of sites: Furthest site (km):

Vehicle downtime windows available:

Certified auto-electrician required on-site? Yes No

Scheduling notes / constraints:

8. Connectivity & Data

SIM / data supplied by: myTrack Client

Network coverage concerns in operating area:

Cross-border roaming required? Yes No

9. Integration & Reporting

Existing systems (ERP / fuel cards / accounting):

API / integration needed? Yes No

No. of platform users / logins: Report cadence:

White-label / client branding required? Yes No

10. Compliance & Data Governance

POPIA consent process in place for driver tracking? Yes No Needs guidance

Required data-retention period: Data owner:

11. Commercial

Budget range / expectation:

Preferred contract term: 12 months 24 months 36 months

Hardware billing preference: Upfront (once-off) Amortised into monthly

Payment terms: Billing entity:

12. Service & Support

SLA / response-time expectations:

Training required? Yes - on-site Yes - remote No

Support hours expected:

13. Sign-off

myTrack assessor: Date:

Client name & signature: Date:

Information gathered is used to prepare an indicative subscription proposal (once-off install, initiation fee, monthly per-unit cost). Pricing subject to site survey
